UTAH'S BIG EXPOSITION IS NOW IN FULL SWING

City People View the Exhibits to Escape the Conference Rush.

Judges Were Kept Busy Yesterday in Making Up the Awards-List of Prize Winners.

The state fair is in full swing and gaining momentum with each passing hour. The present indicatic are that on the last two days, especially when the conference crowds reach the city there will be a jam within the fair enclosure. Many city people realize this already and are taking in the exposition before the great rush. Yesterday was an ideal day for signifeed the adjust of the conduction of the present and although the crowd was not large during the day, the fair grounds were as busy a place as cound be found in the attention of the conduction of the conduction of the conduction of the conduction of the attention of the conduction of the conduction

tracts; the Z. C. M. I.'s was boots and shoes, and the Bear River display was agricultural products. The final outcome was that the judges split the difference. McDonald and Hewlett got \$75 each, and the Z. C. M. I. and the Bear River company got \$25 each. They are four excellent displays.

The crowd was not large yesterday, but it is fully up to the average of the crowds of the corresponding days in past years. Last evening there was a good crowd present in the exposition building and it seemed to thoroughly enjoy the music and the specialities. These are all good in this way and are clean and wholesome. John Lawson pleased the crowd by riding a mile in 80 seconds on a bicycle attached to an indicator. The innovation of having amusements of this kind in the exposition building in the evening is proving to be a strong drawing card, and is adding much to the interest of the fair. The serpeatine skirt dancer called out great applause again last evening. The big crowds will start in with today, as the weat'r promises to be delighton again. The directors and officers are sparing no pains to enter the parades, special amusement features ap their sleeves in the way of liveatock parades, special amusement features, amusic and exhibitions of various kinds.
